3 Choose your personalized finish.

Select from hundreds of finishes — standard stain or paint, metallic paint, MIY paint, artisan stain and metal finish. You can even make it a combination finish with contrasting base and wood or stone top. Make a bold statement with high contrast choices or go for an understated look with tone-on-tone finish options. Customize your piece even further by adding an optional* embellishment such as highlight striping, sheen level or distressing level.

OPTIONAL* PERFORMANCE TOP COAT

You can also add our Performance Top Coat to your piece — designed to ensure the longevity of wood furniture. Offering premium resistance to heat, moisture, cleaners, and abrasion, this extra layer protects fine furnishings from scratches, burns and surface damage. It is a highly durable, transparent top coat specifically designed for dining tables, coffee tables, end tables, and furnishings that are used frequently. This premium coating also includes an antimicrobial agent that protects the surface from the growth of microorganisms. While this top coat does add a very slight sheen to the product, it is not a high gloss lacquer, and the piece can still be damaged. Normal cleaning and care instructions (in the Vanguard Price List) should be followed to extend the life of all our wood furnishings. This optional finish is available on every standard paint and stain we offer, excluding leaf finishes. It is standard on all Tinted Metal finish options and is not offered on any “stocked” finishes. **Optional charges may apply.*

Watkins Dining Table Base P726B
